CLP 中電

ABOUT CLP GROUP

We are an investor and operator in the energy sector of the Asia-Pacific region. For over 100 years, we have powered Hong Kong's dynamic and spectacular growth and we continue to deliver a highly reliable supply of electricity to over 80% of the city's population. Today, our business spans across Mainland China, India, Southeast Asia, Taiwan and Hong Kong. Where we operate, we become part of the social and economic fabric of the local communities we serve working together with them to achieve sustainable growth.

OUR BUSINESS MODEL

CLP's core business is to produce electricity for customers, safely and reliably, at a competitive price and with the least environmental impact. To do this, we do it in different ways across the globe. It is by using a wide range of fuel, coal, gas, oil, wind, solar and hydro. We also invest in the markets in which we operate. We draw on our 'local' knowledge, experience and technology expertise in power plant construction and operation. We also invest in renewable energy solutions to help us deliver power responsibly.
